High School Safe Environment

October 21, 2016

It is recommended that the Safe Environment lesson be presented at the beginning of the faith formation year. There are two parts to the High School – Safe Environment Plan. Both parts should be covered every year. This means that high school students will receive this training and information each year. Rather than being repetitive, with the rapid social development of high school students, the information will have new meaning each year.

PART I
Objectives 1 and 2 are outlined on pages 1 and 2 of the High School – Safe Environment Plan. These pages are the classroom lesson. The lesson should be presented as a discussion with your students. Objectives 1 and 2 will be covered by most high school faith formation resources. As with all resources, supplementing may be necessary. Bring in various resources to cover the objectives thoroughly.

PART II
Objective 3 is covered on pages 3-5 of the High School – Safe Environment Plan. These pages should be gone over in class and sent home with the students.
